rank	name
1	Oregon/California
2	Alaska/Kamchatka
3	Central America / Caribbean Islands

Deep learning used:

1. magnitude / 7 days res. World
2. latitude / 7 days res. World (ref. Value 0)
3. longitude / 7 days res. World (ref. Value 0)
4. latitude / 7 days res. World (ref. Value 25)

Found high probability in latitude>0 and longitude < 0

Checked at point probability to have above latitude 25

Dubious results for latitude > 25

If longitude at point 4 is incorrect the higher probability is Kamchatka
